

**UKRAINIAN  
AGRARIAN  
COOPERATIVE**

**PROFITABLE  
COWS FEEDING**

# The program based on complete feeding, which enable to use high genetic potential fully.

## How to join:

1. Get free training about feeding and care of cow in cooperative training center and receive a certificate.

## Advantages of Ukrainian agrarian cooperative for its members and program`s participants:

1. Get free consulting about cows` and calves` feeding and care from cooperative specialists.
2. Feed cow with specially elaborated products for a complete balanced feeding with high protein content – «SUPER rozdiy» (before 100 day lactation) and «Highly productive concentrate» (from 100 to 250 lactation day).
3. «SUPER rozdiy» will increase the level of milk production and milk fat.
4. «SUPER rozdiy» stimulates animals` feeding of dry matter, increases digestibility of cellulose, improves health and reproductive ability of cows.
5. «Highly productive concentrate» helps to receive maximum milk during lactation.
6. Using feed «SUPER rozdiy» during milking period and «Highly productive concentrate» after it will increase day yield of milk for **3-5** kg, so you get **900-1500** kg of milk more per lactation, or at **5400-9000** UAH.
7. Use free artificial insemination of cow (economy more than **200** UAH)
8. Insemination of cows is held with semen of bulls of «Alta Genetics» that is inspected for quality seed and genomic evaluation.
9. Get free treatment of cows and calves by cooperative veterinarians and make use of discounted veterinary drugs to **20%**.

## Profit:

The cooperative member receives excess profit from the balanced full feeding cows more than **5400-9000** UAH per year.
