

**UKRAINIAN
AGRARIAN
COOPERATIVE**

**PRIVATE
FARMING**

The program allows cooperative members to earn additional income from growing pigs, poultry and rabbits.

For cooperative members and participants there was developed special feed and premixes for animals: pigs, poultry etc.

Benefits of Ukrainian Agrarian Cooperative for cooperative members and participants of program are:

1. Study at free cooperative training center about feeding and care of cattle, pigs and poultry and receive appropriate certificate.
2. Use free consultations about feeding cows, calves, pigs and poultry.
3. Get free treatment of cows, pigs and poultry by cooperative veterinarians and make use of discounted veterinary drugs to **20%**.
4. Get **10%** discount on high-quality feed for breeding and fattening pigs.
5. Use feed for laying hens, chickens and waterfowl at a discount of **10%**.
6. **10%** discounted price for ready feed for turkeys and rabbits.

Benefit:

Having the additional income with breeding pigs, poultry and rabbits, using the proper technology and balanced feed that allowed uncovering of genetic potential of animals and poultry.
